Angie and Steve,

Thank you for your presentation on "Equine Assisted Learning and Therapy for Veterans." The way you connected the topic with *Equus Medendi's* program and specific exercises was well done and very impressive. Your use of your Power-Point presentation with slides and videos kept our participants engaged and, at times, amazed. Those in attendance couldn't help but catch your vision and become believers in your work. Thank you for sharing yourselves with our participants. You enriched our conference experience.

Respectfully,

Maureen Robles, MN, RN
